

## Acknowledgement of Receipt of "Notice of Privacy Practices"

The federal government mandated that as of April 14, 2003 all health care patients are to receive from their clinicians a notice (hereafter referred to as "Notice") regarding the protection of their private health care information in compliance with the Health Insurance Portability and Accountability Act ("HIPAA") Privacy Rule (45 C.F.R. parts 160 and 164).

This form documents that Infinite Potential has given you the "Notice" that is required. HIPAA covers what is called "protected health information" (PHI) that is used for treatment, payment, and health care operations. PHI is information in your health record that could identify you.

The Notice contains basic information about:

1. How your PHI may be used and disclosed for treatment, payment and health care operations (these terms are defined in the Notice).
2. Which uses and disclosures require authorization from you and which don't.
3. How you may revoke an authorization you have made.
4. Certain rights you have to restrict use and disclosure of PHI, to receive confidential communications by alternative means and at alternative locations, to inspect and copy your records, to amend your records, to have an accounting of disclosures.
5. A list of my duties to protect the privacy of your PHI, my right to change the privacy policies and practices described in the Notice, and how I will inform you of changes.
6. What you can do if you have any complaints about violations of your privacy rights, about decisions about access to your records I may make.
7. Any restrictions and limitations you or I wish to put on the use and disclosure of your PHI.

The Privacy Notice is four pages long. Generally, this Notice is given to a client or their parent if the client is a minor.

I acknowledge that Amber Tabares, Ph.D. has given me a copy of the Privacy Notice (version dated 4/14/03) as required by the federal government's HIPAA legislation.
